ELSEVIER

Journal of Statistical Planning and Inference 57 (1997) 335–336

journal of statistical planning and inference

# Author Index Volume 57 (1997)*

## Special Issues on Robust Statistics and Data Analysis, Parts I and II

Basford, K.E. and J.W. Tukey, Graphical profiles as an aid to understanding plant breeding experiments (1) 93–107
Basu, A., *see* M. Markatou (2) 215–232
Boente, G., R. Fraiman and J. Meloche, Robust plug-in bandwidth estimators in nonparametric regression (1) 109–142
Cabrera, J. and G.S. Watson, Simulation methods for mean and median bias reduction in parametric estimation (1) 143–152
Chang, Y.-C.I., *see* D.G. Simpson (2) 273–293
Fernholz, L.T., Reducing the variance by smoothing (1) 29– 38
Field, C.A., Robust regression and small sample confidence intervals (1) 39– 48
Fraiman, R., *see* G. Boente (1) 109–142
Hampel, F., What can the foundations discussion contribute to data analysis? And what may be some of the future directions in robust methods and data analysis? (1) 7– 19
Hubert, M. and P.J. Rousseeuw, Robust regression with both continuous and binary regressors (1) 153–163
Kafadar, K. and P.C. Prorok, Estimating the difference in location parameters of two survival curves, with applications to cancer screening (2) 165–179
Kent, J.T., Data analysis for shapes and images (2) 181–193
Lindsay, B., *see* M. Markatou (2) 215–232
Markatou, M., A. Basu and B. Lindsay, Weighted likelihood estimating equations: The discrete case with applications to logistic regression (2) 215–232
Maronna, R.A. and V.J. Yohai, Robust estimation in simultaneous equations models (2) 233–244
McDougall, A.J., D.S. Stoffer and D.E. Tyler, Optimal transformations and the spectral envelope for real-valued time series (2) 195–214
Meloche, J., *see* G. Boente (1) 109–142
Morgenthaler, S. and A. Nicolaou, Composite transformation models: A fiducial perspective (1) 49– 57
Nicolaou, A., *see* S. Morgenthaler (1) 49– 57
Prorok, P.C., *see* K. Kafadar (2) 165–179
Rocke, D.M. and D.L. Woodruff, Robust estimation of multivariate location and shape (2) 245–255
Ronchetti, E., Robust inference by influence functions (1) 59– 72
Rousseeuw, P.J., *see* M. Hubert (1) 153–163
Ruckstuhl, A.F., Partial breakdown in two-factor models (2) 257–271
Simpson, D.G. and Y.-C.I. Chang, Reweighting approximate GM estimators: asymptotics and residual-based graphics (2) 273–293
Stahel, W.A. and A. Welsh, Approaches to robust estimation in the simplest variance components model (2) 295–319
Stoffer, D.S., *see* A.J. McDougall (2) 195–214
Stromberg, A.J., Robust covariance estimates based on resampling (2) 321–334

*The issue number is given in front of page numbers
